

Important Notice

We wish to announce that we have taken hold of the **Unitype Typesetting Machine**, and shall place it upon the market in extraordinary numbers.

This we are enabled to say because of certain recent, and extremely valuable, developments with respect to this machine, which our *thorough* knowledge of the machine composition situation has enabled us to bring about.

The new Unitype will not be offered until July 15th; but one may be seen in operation at our offices on and after July 1st.
