The continuous joining of the characters in MANDATE imposes extraordinary requirements and limitations in its manufacture. Unfortunately, however, extremely accurate matrices only will not necessarily give complete satisfaction with this typeface.

Because of conditions which can be expected to be encountered in the sticks and division quads and side guide adjustment in the field, with the first $\frac{3}{8}$ " size of MANDATE purchased by a user the order must include, for use with MANDATE only, a special two-slug length $\frac{3}{8}$ " matrix stick combination (per below) and with the first $1\frac{1}{4}$ " size of MANDATE purchased by a user the order must include, for use with MANDATE only, a special two-slug-length $1\frac{1}{4}$ " matrix stick combination (per below).

Below is a description and price of the two-slug-length matrix stick combination for use with MANDATE typefaces:
