No. 1938 Roman 1 1/4" pair	5.00	PLASY
No. 1938 Italic 1 1/4" pair	5.80	PLAZA
Star Automatic Metal Feeder and Mold (Ludlow Model) (APG-477)	113.00	PLEAD
Margach Automatic Metal Feeder and Mold (Ludlow Model) (APG-476)	90.00	AGAST
Minus Mold	87.00	ABAME

The back of the main frame of all Ludlow machines shipped after January, 1917, is drilled to accommodate the bracket which supports an automatic metal Feeder. The Ludlow Company is not interested in orders for Star or Margach Feeders for Linotypes, Intertypes, Monotypes, etc. Orders for the Feeders should only be for Ludlow or Elrod machines. The feeder keeps the proper amount of metal in the crucible at all times with minimum attention. A high metal level in the crucible means a correspondingly high metal level in the throat of the crucible, resulting in a minimum amount of air being forced into the mold and matrices when the slug is cast.

AUXILIARY LUDLOW EQUIPMENT

Water-cooled Molds for Margach Feeder		
pigs. 6 ingots.....	\$300.00	BAKES
4 ingots.....	200.00	BAKEN
Molds for Margach Pigs (FG-484).....	5.00	BALSA
Rouse Slug Cutter (APG-500).....	57.00	ADEEM
Knives for Rouse Slug Cutter (per set)...	3.30	BROCK
