

This is a new drawing made using data from an original Golding & Co. drawing/table.
Only information present in the original is presented here; nothing has been added.

Brayer Roller and Roller Core

Inking Rollers (Roller Core dimensions the same)

Notes:

1. The letters in the drawing are those of the original Golding drawing.
The dimensions are from the table accompanying the drawing.
2. Pin G is dimensioned to "#23" in the original table,
but the gauge system for this number is not specified.
3. As designed, the press used one Brayer Roller and two Inking Rollers.
4. The roller diameters are for composition rollers.
5. Dimensions in inches.

Data from Golding & Co. drawing/table "Cast Roller & Roller Core Data" (undated).
Thanks to Stephen O. Saxe for preserving this information and making it available.
