Here is a listing of my best guess at the names of the typefaces offered in Kelsey's c.1904 catalog. There were probably several regional foundries that produced these fonts for Kelsey to market, and they are where I concentrated my search for their names. My resources were catalogs from A.D. Farmer, Keystone Hansen, Bruce, McK,S&J, etc. I have a modest collection of old catalogs, so I was limited to searching only the books that I had on hand.

There are a few faces that I was unable to find. The first is 18pt. No. 726. The second is 18pt. No. 747, that I actually have a revival font of named Kelsey Ornate (Ornamented No. 747). I recall hearing once that several others had tried to find an original name and foundry of origin and were also unsuccessful So far, it seems to have been exclusive to Kelsey.

Some of these faces appear in different sources and may have different numbers after their names (No. 2 or No. 3, etc.) and I have simply put down their generic name here.
