

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. LETTER OF TRANSMITTAL.

---

OFFICE OF INSPECTOR OF FACTORIES AND WORKSHOPS,  
NEW ERA BUILDING, CHICAGO, ILL., Dec. 15, 1901.

*To His Excellency, HON. RICHARD YATES, Governor of Illinois.*

DEAR SIR:—I have the honor to submit herewith the ninth annual report of the Inspectors of Factories and Workshops for the year ending Dec. 15, 1901.

Very respectfully yours,

LOUIS ARRINGTON,  
*Inspector of Factories and Workshops.*

## FACTORY INSPECTOR'S REPORT.

---

*To the HON. RICHARD YATES, Governor of the State of Illinois.*

GOVERNOR:—In compliance with section nine (9) of the act erecting the factory and workshop inspector's office, I have the honor to lay before you in behalf of this department the ninth annual report of the work done, with such recommendations of additional legislation as my experience in enforcing the law has shown to be urgently required.

I would respectfully recommend the enactment of the law relating to bakeries and confectioneries as recommended in my report of 1899, pages 13-14.

I would also respectfully recommend the enactment of the law relating to wearing apparel and cigars as recommended in my report of 1899, pages 14-15.

It is the duty of the factory inspectors to inspect bakeries and confectioneries for child labor, but the law gives us no control over the sanitary conditions of those places which we find are equal to if not worse than those that exist in the sweatshops.

The act of 1893, relating to the manufacture of clothing, wearing apparel and other articles in this State, should be so amended that all persons engaged in this industry should be compelled to take out a license. New York, Pennsylvania and Massachusetts find that this is the only way whereby the sweatshops can be properly controlled and kept in a good sanitary condition.

Section 2 of the act to regulate the employment of children should be amended. We find quite a number of affidavits made by parents for children who are under the age of 13 years. There is no doubt but what there are a great number of children working in Chicago, who are not 14 years of age, while the affidavits of their parents show that they are over 14 years of age. We have several affidavits in our possession showing the children to be over 14 years of age, but on consulting the church records we find all of these children to be under the age of 14 years and some of them were not over 12 years of age when the affidavit of the parent was made. We took a case before the grand jury but failed to get an indictment on the grounds that the penalty was too severe for the offense. I doubt if a jury could be secured that would indict any one for perjury in making a false affidavit for a child under 14 years of age. The law should be so amended as to impose a fine or jail sentence or both; said fine

should not be less than \$50 nor more than \$100, or imprisonment in the county jail not less than 30 days for each offense, or both fine and imprisonment in the discretion of the court.

We find that notary publics use very little, if any, discretion in issuing affidavits for children between 14 and 16 years of age. It appears that all they take into consideration is the 25 cents they receive for issuing the affidavit. I have called the attention of several notaries to this matter. Some have replied that they did not know or understand the law, while others made no reply. A notary that does not know or understand the law should not be permitted to issue affidavits. It is the duty of a notary to ascertain the correct age of the child before he or she issues an affidavit, and I would recommend that in the future when it is shown that an affidavit has been issued for a child under the age of 14 years, that the commission of the notary issuing said affidavit be revoked. I would ask careful consideration of this matter.

This has been the most prosperous year since the organization of the department. Many of the old establishments have enlarged their plants, and new enterprises have been started in almost every section of the State, as shown by the statistical part of this report. As you will see by the several annual reports, the work is increasing annually and it is impossible for the present force of deputies to properly perform the work. It takes eight deputies three months to inspect the sweatshops once. These shops should be inspected at least twice annually. All places where children are employed should have two inspections each year, but it is utterly impossible to accomplish this with the present number of deputies. Illinois is the fourth State in factory inspection in the Union, and we have 16 less inspectors than any other one of the leading States. New York has 50, Massachusetts 30, Pennsylvania 26, and I would therefore recommend that the force be increased at least five.

Very respectfully yours,

LOUIS ARRINGTON.
