

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

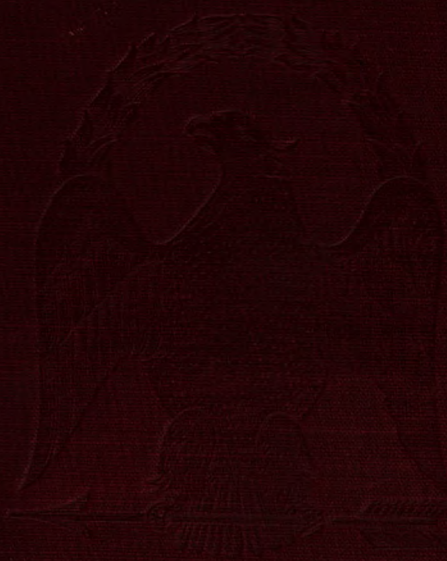

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

ASSESSMENT AND EQUALIZATION.

The assessment and equalization of the property of the State for the year 1910 has not been completed and is not available for the preparation of statistics for this report. The statistics and tabulations relative to the assessment and equalization of the property of the State for the year 1910 will be found in the printed proceedings of the State Board of Equalization, session of 1910.

STATE TAXES LEVIED.

The Forty-sixth General Assembly by "An Act to provide for the necessary revenue for State purposes," approved June 9, 1909, authorized taxation to raise for general State purposes \$5,100,000.00, and for State school purposes \$1,000,000.00 on the assessment for the year 1909.

VII

The rate per cent required to produce the said amounts thus authorized to be raised for the year 1909 was, in accordance with the provisions of said act, computed by the Governor, State Auditor and State Treasurer as follows:

On each \$100.00 of the equalized assessment for the year 1909:

For general State purposes, twenty-nine (29) cents; for State school purposes, six (6) cents.

Thus making the aggregate rate of State tax for the year 1909, thirty-five (35) cents on each \$100.00 equalized assessed valuation of property.

The Aggregate Amount of Taxes Charged on the Tax Books for the Years 1908 and 1909.

TRUST COMPANIES.

Three Illinois Banking Associations and four foreign corporations qualified to execute and accept trusts by lodging with the Auditor of Public Accounts securities as required under the Act to regulate the administration of trusts by trust companies since Oct. 1, 1908. One Banking Association and two foreign corporations have surrendered certificates and withdrawn securities during that period. All of the institutions, domestic and foreign, have rendered annual statements and submitted to examinations by this department. In statement No. 31 will be found condensed exhibits from reports of examinations made under direction of this office since last report.

CORPORATIONS WITH BANKING POWERS.

Since Oct. 1, 1908, ninety Banking Associations have been organized, eight have dissolved, two have consolidated with other State banks and one was converted into a National bank, the powers of three expired through lapse of time for which incorporated, and one, the Crete State Bank, passed into the hands of a receiver.

On Oct. 1, 1908, 422 banks having a combined capital, surplus and profits of approximately \$91,000,000 were in operation as against 497 Oct. 1, 1910, with a total investment aggregating about \$99,000,000, which are at this time carrying on business. During the period covered by this report total resources have increased by more than \$92,000,000 and the deposit liability by about \$75,000,000, of which about \$55,000,000 is in savings. Deposits of this class now exceed \$275,000,000.

Ten calls were made upon the banks for statements under the provision of section 7 of the Banking Act, to which the banks responded promptly. So far as the limitations of the statute would permit, these calls were made simultaneously with those made on National banks by the Comptroller of Currency. The summary and comparative exhibit of resources and liabilities in statement No. 33 of this report were abstracted from the reports filed by the several State banks in response to calls made upon them.

PAWNERS' SOCIETIES.

In statement No. 32 will be found complete information as to the results of examinations made by this department since Oct. 1, 1908, of the two societies organized under and by virtue of the act entitled "An Act to provide for the incorporation, management and regulation of pawners' societies and limiting the rate of compensation to be paid for advances, storage and insurance on pawns and pledges and to allow the loaning of money on personal property," approved March 29, 1899, in force July 1, 1899.

TITLE GUARANTY COMPANIES.

Two companies, the Chicago Title and Trust Company and the Real Estate Title and Trust Company, both of Chicago, are operating under and by virtue of the act entitled "An Act to provide for and regulate the business of guaranteeing titles to real estate by corporations," approved May 31, 1901, in force July 1, 1901, and they maintain with this department the deposit required by said act. These companies have been regularly examined and have submitted annual reports as required by the provisions of sections 7 and 8 of the Act last above referred to.

COURT OF CLAIMS.

The provisions of "An Act to create a Court of Claims and to prescribe its powers and duties," approved May 16, 1903, require the Auditor to submit in his biennial report a statement of the awards made by said

XII

Court. Complying with the provisions of said act I have to report that no awards have been made during the biennial period ending Sept. 30, 1910, except those listed in an "Addenda" to the Auditor's biennial report dated Nov. 1, 1908. The Forty-sixth General Assembly made appropriations to pay all of the awards so listed in the "Addenda" to the Auditor's report of 1908.

Respectfully submitted,
J. S. McCULLOUGH,
Auditor of Public Accounts.

ADDENDA.

The Forty-sixth General Assembly by "An Act to provide for the necessary revenue for State purposes," approved June 9, 1909, authorized taxation to raise for general State purposes \$5,100,000, and for State school purposes \$1,000,000 upon the assessed value of the property for the year 1910.

The rate per cent required to produce the said amount thus authorized to be raised for the year 1910, was, on the 15th day of November, 1910, in accordance with the provisions of said act, computed by the Governor, State Auditor and State Treasurer as follows:

On each \$100.00 of the equalized assessment for the year 1910—

For general State purposes, twenty-five (25) cents,

For State school purposes, five (5) cents.

Thus making the aggregate rate of State tax for the year 1910, thirty (30) cents on each \$100.00 equalized assessed valuation of property.

COURT OF CLAIMS.

For the information of the General Assembly and others interested a statement of the awards made by the Court of Claims since Nov. 1, 1910—the date of the Auditor's biennial report—is herewith submitted as follows:

On the 5th day of November, 1910, an award was made in favor of Lawrence Blickman, claimant against the State of Illinois, for the sum of \$235.00 for injuries received while in discharge of his duties as a member of the Illinois National Guard.

On the 5th day of November, 1910, an award was made in favor of John Paules, claimant against the State of Illinois, for the sum of \$16.28 for pay for services at Camp Tanner prior to muster in the United States service during the Spanish-American War.

On the 5th day of November, 1910, an award was made in favor of W. H. Goff, claimant against the State of Illinois, for the sum of \$15.36 for pay for services at Camp Tanner prior to being mustered in the United States service during the Spanish-American War.

On the 5th day of November, 1910, an award was made in favor of W. C. Carlock, claimant against the State of Illinois, for the sum of \$17.76 for pay for services at Camp Tanner prior to being mustered in the United States service during the Spanish-American War.
